Principal contractor

WBS

Data Centers

Throughout the years WBS have been a crucial component in transforming new Data Centers. We have witnessed the growth and demand in the tech industry and have been proud to put our mark into the development. The end clients include: global banks, financial institutions, global telecommunications companies and government departments.

Working with the top companies in their field, and strong collaboration between trades we have put the life into Data Centers throughout Europe & Asia.

So far our client has delivered over 4.2 million sq ft of technical space to it's customers.

...and WBS Are proud to be a part of that!
